

Bazzani Building Company

Ellyn Olney, Vice President

Ellyn brings years of experience to the Bazzani management team, ensuring everything runs smoothly internally. At Bazzani, Ellyn has her hands in accounting, office management, real estate, and marketing, as well as working in the community with Well House, Local First and representing Bazzani in B Corp related activities.

For more than 20 years, Ellyn has worked with small businesses in the Grand Rapids area in the technology, manufacturing, and construction industries. An administrator by nature, Ellyn loves to make order out of chaos. Her current role at Bazzani allows her to exercise both her organizational side and her creative side. Having experience in the construction industry, Ellyn especially appreciates the company focus on sustainable building and the triple bottom line. She is working to bring those elements into our projects, making a difference to both the client and the community.

Ellyn studied Behavioral Science and Grand Valley State University, and while she didn't imagine a career in construction as a vehicle to serve the community, she couldn't be happier to help build sustainable communities through her work with Bazzani.
